Test Preparation Strategies:

- Start covering small blocks of material we covered from the unit a week prior to the test.
- Look over the material we covered and your review sheet one last time the night before the test.
- Relax and don't get stressed out.
- Try to put material into your own words to help you retain information.
- Use tricks to help you remember.

Post Test Evaluation:

Document how much time you spent studying and any other strategies you feel helped you.

- Time spent studying _____
- Other strategies (things you did to help you study):
- Why did I do well?
- Why did I not do well?
- How did the way I prepared help me be successful?
- Based on my performance over the last several weeks am I improving?
